

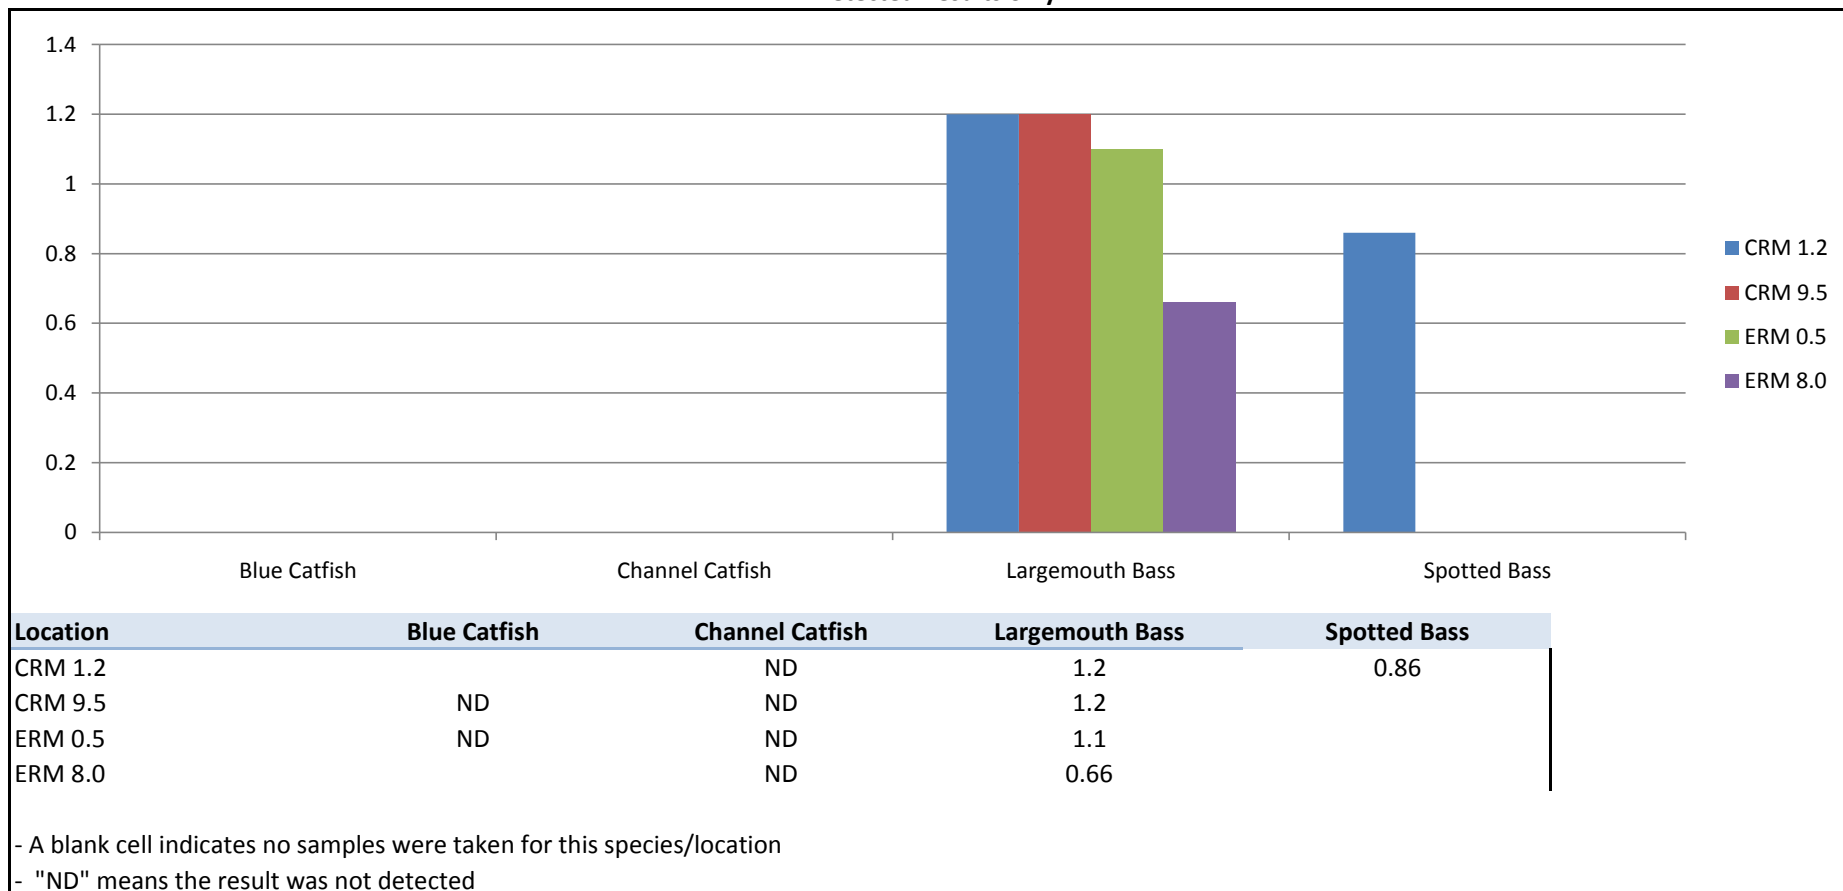

Figure 2
Arsenic Concentration in Baseline Fish Fillets
Collected by TWRA, TVA, & ORNL - First Quarter 2009
Detected Results only

Simple Statistics

Species	# of Samples	Freq of Detect	Min	Max	Avg
Blue Catfish	10	0%			
Channel Catfish	19	0%			
Largemouth Bass	23	83%	0.55	1.2	0.9
Spotted Bass	1	100%	0.86	0.86	0.86

- All results are verified and reported on a dry-weight basis; data are pending rigorous third-party data validation and may be updated based upon the findings from this process.
- Samples were split with Oak Ridge National Laboratory and Tennessee Valley Authority Central Laboratory; the graphs will be updated to include the results from the other laboratories as they become available.
